

VIBENOMICS VIDEO – AUDITION INSTRUCTIONS

Please find the role you are auditioning for and follow the specific instructions for that role. The song for the audition is "Baby I'm Yours" by Breakbot. There is a link to the YouTube video from our audition page or you can search for it yourself. For reference, the lyrics are on page 2 of this document. Remember to turn phone sideways if you are recording with it, so you are shooting horizontally.

FATHER

Dance around, sing the song while preparing a meal / cooking. Mess up the words, sing gibberish, get some of them right and some of them wrong but stay on beat and keep the "song" going. Play off of a kid (or act like you are). You're singing out for yourself because you and her feel good but you're focused on what you're doing too. It's sunny day vibes but this is not a big song and dance - don't do it to perform for us. We want to hear you so please don't play the song unless you need it in an earbud not visible on camera. (You don't need to audition with the whole length of the song, just enough to give producers what they want)

DAUGHTER

Dance around, sing along while the song is on while coloring, doing homework. Mess up the words, sing gibberish, get some of them right and some of them wrong. You're singing out for yourself because you feel good but focus on you're coloring. It's sunny day vibes but this is not a big song and dance - don't do it to perform for us. (You don't need to audition with the whole length of the song, just enough to give producers what they want)

YOUNG MAN 20S

Sing the chorus, "Listen baby, Your wish is my command..." etc. to self while acting like you're washing yourself in the shower. Mess up the words, sing gibberish, get some of them right and some of them wrong. You're singing out for yourself because you feel good for your date and this tune is stuck in your head. It's sunny day vibes but this is not a big song and dance - don't do it to perform for us. Don't try to be too cool just relax and be yourself. We want to hear you so please don't play the song unless you need it in an earbud not visible on camera.

WOMAN

Hum/murmur the beginning "I thought I had it all together..." etc. OR the chorus "Listen baby, your wish is my command..." etc to self while doing an every day activity at home like walking, washing dishes, making coffee, etc. This should be understated and more about the activity but the song is going through mind. You're alone so hum it lightly like an earworm stuck in your head. This is not a big song and dance. We want to hear you so please don't play the song unless you need it in an earbud not visible on camera.

LYRICS – “BABY I’M YOURS” BY BREAKBOT – FOR REFERENCE

I thought I had it all together
But I was led astray
The day you walked away
You were the clock
That was ticking in my heart
Changed my state of mind
But love's so hard to find

Your feelings change like the weather
Went from clear to grey
On that cloudy day
How can I go on
With that bomb in the palm
Love's so hard to find
When someone's on your mind

Listen baby
Your wish is my command
Baby won't you understand
That your wish is my command
What can I do to make
My baby understand

Something tells me that I'm dreamin'
I can see us there
Waving unaware
Of problems that have a tendency to keep
Keep the truth confined
Far from our minds
You need someone you can believe in
This I do declare
Trust me I'll be there
The road that leads to heaven can be so steep
I will help you climb
Change your state of mind

Listen baby
Your wish is my command
Baby won't you understand
That your wish is my command
What can I do to make my baby understand
Your wish is my command
Baby won't you understand
That your wish is my command
I can see us there
Waving unaware
This I do declare

Trust me I'll be there
I can see us there
Waving unaware
This I do declare
Trust me I'll be there
I can see us there
Waving unaware
This I do declare
Trust me I'll be there

Listen baby
Your wish is my command
Baby won't you understand
That your wish is my command
What can I do to make my baby understand
Follow me into, into my sleep
Baby I'm yours, I'm yours to keep
You've got the magic that entered my heart and my mind

Your wish is my command
Baby won't you understand
Your wish is my command
Baby won't you understand
Your wish is my command
Baby won't you understand
Your wish is my command
Baby won't you understand
