

Hancock Health - Self Tape Instructions

SHOOT LOCATION: Indianapolis, IN

ZOOM CALLBACK: Wednesday, July 20th

SHOOT DATES: August 3-8

SELF TAPES DUE: Sunday evening

If filming on a smartphone/iPhone please film HORIZONTALLY. Make sure you are in a quiet room against a BLANK backdrop. See below for examples of how your should be set up:

SLATE: Close up head shot smiling into camera then...

Please slate close up (shoulders up) introducing yourself stating your first and last name. Give us your profile shots. End with a full body shot. Please state you are available for the callback date and shoot dates. Tell us where you currently live ON CAMERA. Please state on camera that you are willing to work as an Indianapolis local! (There will be no travel expenses available so you MUST work as a local)

AUDITION: Frame from waist up

We would like to see back to back reactions, see how quickly and naturally you can change from one expression to the next expression and so on. Move quickly through expressions yet don't be rushed... Natural movements with a natural flow.

You should have a reader for this audition

Your reader should read the following scenarios in [blue](#) behind camera while you show the camera your reactions and expressions. All of these expressions should be very lightweight, natural, genuine. Hit the beats of each emotion and move through them quickly and seamlessly.

Scenarios:

DOCTORS/NURSES

A mother and father have brought in their son because he injured his arm... You examine the child and share expressions of assurance and confidence that the child is going to be okay.

You're delivering good news to a woman and her husband excited to share that she is pregnant!

The pregnant woman is back in the doctor's office worried about her baby... You reassure her that everything is okay and the baby is healthy.
