

MILES - AUDITION

Slate:

- Say your name and agency
- Be sure to have a quick full length body shot, too.
- Please show any tattoos or piercings (besides ears) that would be visible with a short sleeve shirt or short dress.

Audition:

- Can be framed in a medium shot, mid-chest up to just a little over your head, so we can clearly see your face/expressions.

Script:

I'm a grandson. A son. I'm an employee and mentor. I'm a father to two beautiful daughters and a husband to an amazing wife. And I have a substance use disorder. In other words, I'm living in recovery with an addiction disease. And now that you know, will you let it change how you see me? It's OK to see my addiction, but I want you to know: it's people choosing to see me as a person that changed my life.
